

Wooden Armchair

With an aesthetic that fuses personality and timelessness, the Coda armchair stands out for its balance between formal simplicity and the distinctive character of its curves. Its light and elegant ash wood frame complements the sinuous curves of the upholstered back and seat, offering comfort and a sense of warmth and sophistication. Designed by Studio Outlier, it is intended to blend into a variety of settings where the armchair adds a distinctive, contemporary touch

Outlier

2026

Outlier is an emerging creative studio in which industrial design are developed, art direction and photography projects. It is the result of the synergy of a team of designers who, with the same philosophy and varied skills, converge their ideas with harmonious results endowed with sensitivity and rigorosity. The essence of their work is the result of a great admiration for the material and an appreciation for detail. The designs are based on the exploration of natural forms; as lofty as they are simple, they inspire the curves, the joints and the details of furniture, lighting and even textiles.
