

Lounge chair

Gregorio Vicente Cortés

1961 - 2022

Collection based on the reproduction of two pieces by H Muebles, the contemporary furniture firm founded in 1958 by the Huarte family. Entitled Formentor, this collection of an armchair and bench evoke an emblematic place on the island of Mallorca that is closely intertwined with the family's history. Made with the artisan technique of weaving rattan core, the pieces were originally designed in 1961 by Gregorio Vicente Cortés. We are going back to our roots through the faithful reproduction of original pieces with the collaboration of the acclaimed designer and architect Pedro Feduchi.

Designer and Technical Director of H Muebles and creator of the main body of the catalogue produced by the firm, which put technicians and artists to work in pursuit of the art of contemporary furniture in Spain in the mid-20th Century.

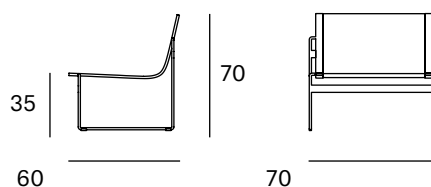

Ref: 580000

Materiales
