

Armchair with wooden arms and 4-leg wooden base

The new series takes its name from the German term Urmuster, which refers to the original pattern, the primitive form from which all variants are generated. The collection is based on this same idea: the visible connection between the body and the legs, which becomes the starting point for all versions, with or without armrests.

Francesc Rifé

2026

Interior and industrial designer, Francesc Rifé founds his own studio in Barcelona in 1994. Influenced by minimalism and following a familiar tradition linked to craftsmanship, his work focuses on ways of approaching spatial order and proportion.
